Please see our appointment leaflet for details on our appointment system and times.

Routine appointments can be booked up to eight weeks in advance. Patients have a responsibility for keeping booked appointments or cancelling them if they are unable to attend.

Missed Appointments Policy

A significant number of booked appointments per month are missed where the patient does not attend ('DNA') and does not contact the surgery in advance to cancel/change the appointment. The effects of these missed appointments are: • An increase in the waiting time for appointments. • Frustration for both staff and patients. • A waste of resources. Therefore the practice has the following policy on missed appointments: • If you fail to attend appointments without informing us, we will write to you asking if there are any specific problems preventing you from letting us know. • If you repeatedly fail to attend for appointments, you may be removed from the practice list and will have to find an alternative GP practice.

Named Accountable GP

From 1 April 2015, practices are required to allocate a named, accountable GP to all patients (including children). Individual patients will be informed of their named accountable GP at the first appropriate interaction with the practice. If you wish to be told the name of your named, accountable GP, please ask the receptionists when you are next in the surgery.

For convenience your named, accountable GP will be the doctor you are registered with. Please note: there is no need to telephone the practice for this information. If you are over the age of 75 you will be notified of this information via a letter.

Where a patient expresses a preference as to which GP they have been assigned, the practice will make reasonable efforts to accommodate this request. Having a named GP does not prevent you seeing any other doctor in the practice.

Your named GP will not be available at all times and if your needs are urgent, you may need to discuss them with an alternative doctor. All clinicians will have full access to your medical records when dealing with your needs

Our Practice is committed to providing a safe, comfortable environment where patients and staff can be confident that best practice is being followed at all times and the safety of every-one is of paramount importance.

All patients are entitled to have a chaperone present for any consultation, examination or procedure where they feel one is required. This chaperone may be a family member or friend.

On occasions you may prefer a formal chaperone to be present.

Your healthcare professional may also require a chaperone to be present for certain consultations in accordance with our chaperone policy.

If you wish to have a member of the Practice staff present during your consultation please mention this to our Reception Staff when booking your appointment, or to the doctor at your consultation, and it will be arranged.

Unless there are exceptional circumstances, for example when the health and safety of others are at risk, we will not disclose your information to third parties without your permission.

Everyone working for the NHS has a legal duty to maintain the highest level of confidentiality about patient information. In some instances you may well be receiving care from other people as well as the NHS. In this instance we may need to share some information about you with them so that we can all work together for your benefit.

In certain circumstances we are required by law to report information to the appropriate authorities: however our guiding principle is that we are holding your records in strict confidence.

If at any time patients would like to know more about how we use their information patients can speak to the Practice Manager.
